

THE TOUCHPOINT OF INDIA

RP 35 GOLD DOT MATRIX PRINTER

Best in class bill printing

Drop & Print Paper Loading - Drop the paper roll, close the top cover and just print the bill

Printing Speed Of 5 Lines Per Second - Prints bills at 15 bills per minute

Multiple Copy Printing (1+2) - Prints original plus two duplicate copies

Dual Colour Printing - Prints in 2 colours - red and black

Built-In Power Adapter - Sleek design to improve aesthetics

Paper Low, Paper End & Cover Open Sensor - Keeps you informed in advance when the printer requires a change in roll paper

The RP 35 GOLD Advantage

The retail sector is right now in a metamorphic growth phase in India. A major transformation is taking place in formats, technology, design and merchandise. Today's retail customer not only wants fast and reliable printers, but also one that gels with the modern and upbeat retail environment. This is magnifying the scope for technology providers like TVS-E to create innovative retail products.

Traditionally, Dot Matrix Printers are known for their reliability, ruggedness and low running cost. The RP 35 Gold is a 40 Column Dot Matrix Printer with a print speed of 5 lines per sec. It is designed to withstand tough Indian POS environments where fluctuating voltage and dusty conditions are common. It is equipped with multiple copy printing, one original plus two copies, suited for KOT applications. The convenient dual colour printing feature makes the bills more presentable and professional while a built-in AC adapter gives the end user the benefit of fewer hanging wires.

All this comes from a brand that has been the epitome of trust - TVS Electronics, a company which has understood the Indian retailer like no other.

Specifications
